Prof. Dr. Mohd Talib Latif

Professor of Atmospheric Chemistry and Air Pollution

Institute of Climate Change (IPI UKM) · Universiti Kebangsaan Malaysia · 43600 Bangi, Selangor
talib@ukm.edu.my · +603-8911-8032 · Bangi, Selangor, Malaysia

PROFILE

Prof. Dr. Mohd Talib Latif is a professor of atmospheric chemistry and air pollution at the Department of Earth Sciences and Environment, Faculty of Science and Technology, Universiti Kebangsaan Malaysia, and a fellow of the Academy of Sciences Malaysia. He completed his BSc in Chemistry and MSc in Environmental Sciences (Air Pollution) at Universiti Kebangsaan Malaysia, and his PhD in Environmental Sciences at the School of Environmental Sciences, University of East Anglia, United Kingdom.

He currently serves as Director of the Institute of Climate Change at Universiti Kebangsaan Malaysia and President of the Malaysian Association for Aerosol and Air Quality Research (MAAQR). He previously served as Chairman of the Department of Earth Sciences and Environment at UKM, Chairman of the Sustainable Resources, Environment and Smart Living Research Cluster at the IDEA Centre (2020–2023), Deputy Dean (Postgraduate) at the Faculty of Science and Technology (2018–2020), Deputy Director at the Institute for Environment and Development (LESTARI, 2015–2018), Head of the Centre for Tropical Climate Change System (IKLIM, 2013–2014) and Head of the Environmental Science Programme (2010–2013). In 2014, he undertook a sabbatical at the Centre for Atmospheric Science, Department of Chemistry, University of Cambridge.

His research focuses on the composition of atmospheric aerosols from a range of sources, including the sea-surface microlayer, as well as the composition of atmospheric gases, particularly surface ozone and volatile organic compounds (VOCs). His group collaborates closely with Malaysian government agencies including the Department of Environment (DOE) and the Malaysian Meteorological Department (MetMalaysia). At the international level, he is active in the International Global Atmospheric Chemistry – Monsoon Asia and Oceania Networking Group (IGAC-MANGO) and served on the scientific steering committee of the Surface Ocean Lower Atmosphere Study (SOLAS) from 2018 to 2023. He is a member of the IPCC Task Force Bureau on National Greenhouse Gas Inventories.

In 2018, he received the Top Research Scientist Malaysia award from the Academy of Sciences Malaysia for his research and publications. His work spans atmospheric aerosol composition, surface ozone and VOCs, indoor and outdoor air quality, transboundary haze, persistent organic pollutants and the development of monitoring and modelling methods for air-quality assessment in Malaysia and Southeast Asia.

QUALIFICATIONS

2006 — **PhD — Environmental Sciences**
University of East Anglia, United Kingdom

1999 — **MSc — Environmental Sciences (Air Pollution)**
Universiti Kebangsaan Malaysia

1995 — **BSc (Hons) — Chemistry**
Universiti Kebangsaan Malaysia

ACADEMIC CAREER

2 December 2013 – present	**Professor** School of Environmental and Natural Resource Sciences, Faculty of Science and Technology, Universiti Kebangsaan Malaysia
13 August 2009 – 11 December 2013	**Associate Professor** School of Environmental and Natural Resource Sciences, Faculty of Science and Technology, Universiti Kebangsaan Malaysia
22 December 2006 – 12 August 2009	**Senior Lecturer** School of Environmental and Natural Resource Sciences, Universiti Kebangsaan Malaysia
18 March 1999 – 12 August 2009	**Lecturer** School of Environmental and Natural Resource Sciences, Faculty of Science and Technology, Universiti Kebangsaan Malaysia
1 September 1995 – 17 March 1999	**Tutor** Matriculation Centre, Universiti Kebangsaan Malaysia / Department of Environmental Science, Faculty of Sciences and Natural Resources, Universiti Kebangsaan Malaysia

ADMINISTRATIVE AND MANAGEMENT ROLES

1 August 2026 – present	**Director** Institute of Climate Change (Institut Perubahan Iklim), Universiti Kebangsaan Malaysia
26 March 2023 – 2026	**Chairman** Department of Earth Sciences and Environment, Faculty of Science and Technology, Universiti Kebangsaan Malaysia
1 April 2020 – 25 March 2023	**Chairman** Sustainable Resources, Environment and Smart Living Research Cluster, Centre of IDEA, Universiti Kebangsaan Malaysia
1 January 2018 – 26 March 2020	**Deputy Dean (Postgraduate)** Faculty of Science and Technology, Universiti Kebangsaan Malaysia
1 May 2015 – 31 December 2018	**Deputy Director** Institute for Environment and Development (LESTARI), Universiti Kebangsaan Malaysia
12 December 2013 – July 2014	**Head** Centre of Tropical Climate Change System (IKLIM), Institute for Climate Change, Universiti Kebangsaan Malaysia
16 July – 12 December 2013	**Head** Centre of Tropical Climate Change System (IKLIM), Faculty of Science and Technology, Universiti Kebangsaan Malaysia
15 January 2010 – 14 January 2013	**Head of Environmental Science Programme** School of Environmental and Natural Resource Sciences, Faculty of Science and Technology, Universiti Kebangsaan Malaysia

1 March 2009 – 14 January 2010

Coordinator for Research and Publication
Centre for Student Advancement, Universiti Kebangsaan Malaysia

2020 – 2023

Adjunct Professor
Universitas Airlangga, Indonesia

2014

Sabbatical leave
Centre for Atmospheric Science, Department of Chemistry, University of Cambridge, United Kingdom

AWARDS AND PRIZES

2025

UKM Merit Award
Universiti Kebangsaan Malaysia · University recognition

2022 – 2025

World's Top 2% Scientist
Stanford University & Elsevier · International recognition

2021

Distinguished Scholar Award
ASEAN Academy of Sciences · International recognition

2020

UKM Merit Award
Universiti Kebangsaan Malaysia · University recognition

2019

UKM Bitara Award
Universiti Kebangsaan Malaysia · University recognition

2018

Top Research Scientist Malaysia (TRSM)
Academy of Sciences Malaysia · National research award

2016

Best Poster Award
JSPS-ACP Conference, Kyoto University, Japan · Conference award

2013

UKM Merit Award
Universiti Kebangsaan Malaysia · University recognition

2012

Gold Medal, International Engineering Invention & Innovation Exhibition (i-ENVEX) and Malaysian International Young Inventors Olympiad (MIYIO)
As supervisor · Innovation award

2009

UKM Merit Award
Universiti Kebangsaan Malaysia · University recognition

RESEARCH GRANTS

2023 – 2024

Feasibility study for a high-resolution Southeast Asian air pollution forecasting system
Foreign, Commonwealth & Development Office (FCDO), United Kingdom · ST-2024-015 · International · Project Leader · RM 83,123

202[redacted]

Concentration and Emission of Methane in Malaysia
Environmental Defense Fund · ST-2023-015 · International · Project Leader · RM 89,000

2021 – 2024

Impacts of the COVID-19 pandemic on air quality of the Monsoon Asia region: Cross-country assessment and facilitating policy

Asia-Pacific Network for Global Change Research (APN) · ST-2021-013 · International · Project Leader · RM 373,373

2019 – 2020

Understanding South and Southeast Asian Haze in 3-Dimension: Aerosol source, climatology, transport and health impacts

ASEAN-India Collaborative R&D · ST-2019-007 · International · Project Leader · RM 203,917

2018 – 2020

The influence of biomass burning on high concentration of PM2.5 in selected areas in Southeast Asia

Advanced Institute Seed Grant Programme · ST-2018-010 · International · Project Leader · RM 59,136

2016 – 2017

Evaluation of fine and nano particles concentration in several cities in Malaysia and Thailand

Royal Thai Embassy (UKM-Thai Window) · ST-2016-008 · International · Project Leader · RM 20,000

2024 – 2026

Concentrations and Potential Sources of Persistent Organic Pollutants Around Selected Landfills and Their Potential Impacts on Human Health

Fundamental Research Grant Scheme (FRGS) · FRGS/1/2024/WAS02/UKM/01/1 · National · Project Leader · RM 158,484

2020 – 2023

Assessing the impact of global temperatures on surface ozone climate change penalty in Malaysia

Fundamental Research Grant Scheme (FRGS) · FRGS/1/2020/WAB02/UKM/02/3 · National · Project Leader · RM 81,000

2021 – 2023

Optimization of Airboxsense System for Fine Particulate Matter and Dioxins/Furans Composition in Ambient Air with Their Application in Health Risk Assessment

Technology Development Fund 1 (TeD 1) · TDF04211364 · National · Project Leader · RM 337,000

2019 – 2022

Environmental impact and health risk assessment from vehicle emission in Kuala Lumpur urban environment

Fundamental Research Grant Scheme (FRGS) · FRGS/1/2018/WAB05/UKM/01/1 · National · Project Leader · RM 105,000

2015 – 2018

Characterization, Source Apportionment and Health Risk Assessment of Fine Particulate Matter and Indoor Dust in School Environment

Fundamental Research Grant Scheme (FRGS) · FRGS/1/2015/WAB03/UKM/01/1 · National · Project Leader · RM 88,200

2015 – 2017

Composition of volatile organic compounds from sea-surface microlayer around coastal areas in Peninsular Malaysia

ScienceFund MOSTI · 04-01-02-SF1259 · National · Project Leader · RM 342,240

2022 – 2023

Variation and characteristics of atmospheric microplastic in the coastal environment of Peninsular Malaysia

Dana Impak Perdana 2.0 (DIP 2.0) · DIP-2022-001 · Internal · Project Leader · RM 100,000

2020 – 2021

Indoor Air Quality Assessment in Faculty of Science and Technology (FST), Universiti Kebangsaan Malaysia

Faculty Grant · ST-2020-008 · Internal · Project Leader · RM 20,000

[redacted]

Variation of Volatile Organic Compounds (VOCs) in Ambient Air and Its Effect on the Environment and Human Health

Dana Impak Perdana · DIP-2019-006 · Internal · Project Leader · RM 100,000

2018 – 2021

Spatio-Temporal variation of PM2.5 concentration across Malaysia based on station observation, satellite estimation, and model simulation

Research University Grant · GUP-2018-109 · Internal · Project Leader · RM 60,000

2016 – 2019

The influence of seasonal climatic variations on the composition of fine particulate matter and atmospheric gases

Dana Impak Perdana · DIP-2016-001 · Internal · Project Leader · RM 100,000

POSTGRADUATE SUPERVISION

42 postgraduate researchers: 27 completed PhDs, 6 current PhD researchers, 8 completed MSc researchers and 1 current MSc researcher.

COMPLETED PHD — MAIN SUPERVISOR

Nor Syamimi Sufiera Binti Limi Hawari (2026) — Volatile organic compounds (VOCs) in ambient air and its effect on the environment and human health

Ahmad Norazhar Mohd Yatim (2024) — Investigation of heat wave events in Malaysia

Nurzawani Md Sofwan (2023) — Influence of motor vehicle emissions towards air pollutants in Kuala Lumpur city centre

Hanashriah Hassan (2022) — Variations of PM2.5 compositions influenced by different monsoon seasons

Haris Hafizal Abd. Hamid (2021) — Comprehensive Assessment of VOCs and SVOCs in Ambient Air of Malaysia

Nor Diana Abdul Halim (2021) — Air pollution and land use changes in the Malaysian Peninsula

Royston Uning (2021) — Volatile organic compounds from sea surface microlayer

Mohd Famey Yusoff (2021) — Long term trend of nocturnal surface ozone and its potential sources in Malaysia

Azwani Alias (2020) — Indoor air quality in school environment

Suhaily Amran (2019) — Evaluation of direct and indirect sampling method for respirable crystalline silica compliance monitoring

Norazura Sulong (2018) — Composition, source apportionment, health risk assessment and toxicity testing of fine particulate matter in Kuala Lumpur city center

Negar Banan (2016) — Correlation of surface ozone and its pre-cursors around the Klang Valley, Malaysia

Fatimah Ahmad (2015) — Development of a model to assess variations in ozone concentration at different land use areas in Malaysia

Norlin Mohamad (2015) — Indoor and outdoor relationships of air pollutants in selected schools

Norhaniza Amil (2015) — Apportionment and composition of atmospheric aerosols

Nurul Bahiyah Binti Abd Wahid (2014) — Composition and flux of surfactants in urban and suburban areas

Murad Ali Amin Alsalahi (2014) — Composition of surfactants and the movement of surfactants in the coastal areas

Sahel (Mohammad-Rateb) Amer Al-Batayneh (2014) — Influence of meteorological factor to the composition of atmospheric aerosols

COMPLETED PHD — CO-SUPERVISOR

Nur Nazmi Liyana Binti Mohd Napi (2026) — Development of a Numerical Chemical Weather Prediction Model (WRF-CMAQ) to Simulate PM2.5 and O3 Concentration During Transboundary Smoke Event in Peninsular Malaysia

Ezahtulsyahreen Binti Ab Rahman (2024) — Penilaian Permodelan Ramalan Ke Atas Parameter Zarah Terampai Halus PM2.5 Di Malaysia

Anas Ahmad Jamhari (2023) — Polyaromatic hydrocarbons in nano particles

Radin Zulhazmi Bin Radin Abdul Halim (2022) — Pendekatan Keinstitusian Terhadap Peralihan Tenaga Berkarbon Rendah di Semenanjung Malaysia

Azl[redacted] ir pollution in industrial area from vehicular emission: Towards sustainable industry

Mu[redacted] Determination of carbon emission and particulate matter in building environment: Case study in Seremban Town

Nasser Salem Mohamed Alrawiq (2015) — Determination of heavy metals and pesticides content in the paddy plants, soils and water from field area in MADA, Kedah

Ipung Fitri Purwanti (2013) — Phytoremediation of hydrocarbon from sludge using aquatic plants

Rahelah Farzanmanesh (2012) — Evaluation of PM10 concentration using mesoscale model in Klang Valley

CURRENT PHD RESEARCHERS

Zahirah Mohd Yusof (started 2024) — PCN in different backgrounds in Peninsular Malaysia

Jivantiran Myilravanan (started 2022) — Occurrence of PCDDs and PCDFs toxicity among workers at landfill in Malaysia

Nur Ismah Izzati Ismail (started 2022) — Harm profiling of smoke from tobacco cigarettes and commercially available non-combustible nicotine products (vapes and HTPs) in Malaysia

Pauziyah Mohammad Salim (started 2021) — NO2 concentrations based on satellite images

Hartini Mahidin (started 2019) — The impact of land-use changes on biogenic isoprene emissions and surface ozone concentration in Malaysian Borneo

Nor Hafizah Baharudin (started 2018) — Prediction of air pollutants in Kuala Lumpur based on Atmospheric Dispersion Modelling System model

COMPLETED MSC — MAIN SUPERVISOR

Nuraleesha Abdullah (2022) — Variation of aerosols in tropical Danum Valley, Sabah

Shoffian Amin Jaafar (2014) — The influence of meteorological factors to the composition of surfactants around the coastal areas

Nor Ili Hamizah Mustaffa (2014) — Composition of surfactants from sea surface microlayer

Intan Suraya Abdul Razak (2014) — Composition and flux of surfactants around Chini Lake

Faridah Ahmad Azam (2013) — A comprehensive assessment of the carbon stocks and fluxes in natural forest and planted forest in Peninsular Malaysia

Nor Hafizah Baharudin (2013) — Composition of heavy metal and organic substances around school environments

COMPLETED MSC — CO-SUPERVISOR

Anas Bin Ahmad Jamhari (2016) — Risk assessment of pollutants from motor vehicles in Klang Valley

Nurul Asikin Zainon (2015) — Impact of haze towards daily mortality in Klang Valley

CURRENT MSC RESEARCHERS

Nor Azura Zakaria (started 2019) — Temporal variability and seasonal variation of GHG concentration in the tropical rainforest

INVITED AND PLENARY TALKS

2025 · 25–26 February 2025

Assessment of dioxins-furans and polycyclic aromatic hydrocarbons in ambient air of the Kuala Lumpur urban environment

1st International Conference on Climate Change and Sustainable Development · National University of Sciences and Technology (NUST), Islamabad, Pakistan

2025 · 29 January 2025

Agricultural peat burning and its impact to PM2.5 concentration in Malaysia

Prince Mahidol Awards Conference 2025 (PMAC 2025) · Institute of Research and Development on Health of Southern, Bangkok, Thailand

2024 · 23 October 2024

Assessment of major air pollutants in the urban environment of Kuala Lumpur

Korean Society for Atmospheric Environment (KOSAE) Annual Conference · Seoul, Korea

2024 · 2–4 August 2024

Polychlorinated dibenzo-p-dioxins, dibenzofurans and polycyclic aromatic hydrocarbons in the urban air of Kuala Lumpur

The 10th Theory & Technique and the 1st Indonesian Aerosol Association Conference 2024 · Institute of Technology, Bandung, Indonesia

2024

Biomass burning in Southeast Asia and its potential effects on human health and climate change

The 7th International Workshop on Regional Air Quality Management in Rapidly Developing Economic Regions and the 1st Greater Bay Area Climate Forum (7RAQM) · Hong Kong University of Science and Technology, Guangzhou, China

2024 · 28–29 March 2024

Atmospheric polychlorinated dibenzo-p-dioxins and dibenzofurans in Kuala Lumpur urban environment and their potential risk to human health

2024 T&T TFOSE: Theory and Technique Taiwan Forum on Sustainable Environment · Taiwan Association for Aerosol Research, Taipei, Taiwan

2023 · 20 October 2023

The concentration of particulate matter with different sizes (PM10, PM2.5, PM1) from cooking activities

International Forum on Biomass Cooking and Heating · Beijing University of Chemical Technology Malaysia

2022 · 16–17 November 2022

Polycyclic aromatic hydrocarbon in Kuala Lumpur urban environment and its effect on human health

The 4th Malaysian Congress of Toxicology 2022 (MyCOT2022) · International Islamic University, Kuantan, Pahang, Malaysia

2022 · 25 August 2022

The concentration of major air pollutants during the different phases of Movement Control Orders due to the COVID-19 pandemic in Malaysia

16th IFEH World Congress on Environmental Health (WCEH 2022) · World Trade Centre, Kuala Lumpur, Malaysia

2021 · 20–22 October 2021

Concentration of major air pollutants during the Movement Control Order due to the COVID-19 pandemic in Malaysia

64th Annual Meeting of the Korean Society of Atmospheric Environment 2021 · Jeju Shinhwa World Landing Convention Centre, Korea

2021 · 28–29 June 2021

Study on the population of airborne bacteria and antibiotic resistance from a hospital environment

1st International Conference on Moisture in Buildings · University College London, United Kingdom

2021 · 12–16 June 2021

Characteristics and spatial-temporal variability of PM10, PM2.5 and PM1 during a 2019–2020 biomass burning event in Southeast Asia

Sustainability Research & Innovation Congress 2021 · Future Earth, Brisbane, Australia

2021 · 24–25 March 2021

Seasonal variation of water-soluble inorganic ions, carbonaceous components and polycyclic aromatic hydrocarbons of size-fractioned urban air particles in Kuala Lumpur, Malaysia

Prince of Songkla University–Kanazawa University Joint Workshop · Prince of Songkla University, Thailand

2018 · 14–16 October 2018

Long-term record of air quality in Malaysia

Better Air Quality Conference 2018 · Borneo Convention Centre, Sarawak, Malaysia

2018 · 27–28 March 2018

Sources and health risk of PM2.5-bound polycyclic aromatic hydrocarbons and biomass burning tracers in Kuala Lumpur urban environment

International Conference on Atmospheric Composition and Climate Change in Asia · Universiti Kebangsaan Malaysia, Bangi, Malaysia

2018 · 22 June 2018

Impact of regional haze episode towards air quality in Malaysia

International Conference on Energy Systems and Environmental Management (ESEM 2018) · Siam Oriental Hotel, Hadyai, Songkhla, Thailand

2017 · 7–8 December 2017

Status of air quality in Kuala Lumpur urban environment

INCHINA Forum (ICF): Mutual Cooperation among Asian Cities on the Environment and Energy · Incheon, Korea

2017 · 10 November 2017

Impact of regional haze towards air quality in Malaysia

Conference on Regional Haze and Climate Change Management · Chiang Mai, Thailand

2017 · 5–6 December 2017

Source apportionment and health risk assessment of PM2.5 during haze and non-haze days in Kuala Lumpur urban environment

3rd Malaysian Congress of Toxicology (MyCOT 2017) · Pusat Siswazah, Universiti Kebangsaan Malaysia

2017 · 23–25 August 2017

The composition of air pollutants during haze and non-haze episodes in Southeast Asia

5th International Conference on Environmental Research and Technology (ICERT 2017) · Jen Hotel, Penang, Malaysia

2016 · 11–12 August 2016

The composition of air pollutants during haze and non-haze episodes in Southeast Asia

2016 International Conference on Science and Technology Applications in Climate Change (STACLIM 2016) · The Pacific Sutera Hotel, Kota Kinabalu, Sabah, Malaysia

2016 · 12 March 2016

Seasonal variability and compositions of particulate matter during haze and non-haze episodes in Malaysia

International Conference on Environment and Occupational Health 2016 · Putrajaya, Malaysia

CONFERENCE PRESENTATIONS

2025 · 2025

Investigating polychlorinated naphthalenes (PCNs) in Asia Pacific regions: A review of sources, occurrences and health impacts

The 11th 2025 Theory and Technique International Aerosol Conference (11th 2025 T&T IAC) · Universiti Kebangsaan Malaysia, Bangi, Malaysia

2022 · 26–29 September 2022

Ocean biogeochemical control on atmospheric chemistry

8th Hybrid SOLAS Open Science Conference · Surface Ocean Lower Atmosphere Study, South Africa

2022 · 10–19 September 2022

Seasonal variations and compositions of size-fractioned urban atmospheric particulate matter in Kuala Lumpur, Malaysia

iCACGP/IGAC Joint International Atmospheric Chemistry Conference · Manchester, United Kingdom
